

Darja Golubeva Digital Designer / Front-end Developer

dgolubeva.com@gmail.com | +37120021524 | LinkedIn | dgolubeva.com

Product-focused **Digital Designer & Developer** with experience designing and building production-ready web platforms. Strong background in **UX/UI design** and **front-end** implementation, working within structured, iterative workflows and established technical frameworks. Comfortable collaborating in development teams, translating requirements into scalable design and front-end solutions suitable for organizations of different sizes.

Professional Experience

Web Designer & Developer

2025/08 – Present | Riga, Latvia

Adlensoft SIA

- Designed and redesigned web platforms, including end-to-end design from scratch and structured redesign projects.
- Led **UX/UI design** processes from wireframes to high-fidelity designs in **Figma** using an iterative, feedback-driven workflow.
- Developed front-end components for selected projects using **React**, **TypeScript**, and **Next.js** within established frameworks.
- Worked within a small development team to translate requirements into functional digital solutions.

Freelance Graphic Designer

2024/09 – Present | Riga, Latvia

RRM Media

- Designed print and digital assets for web, social media, and marketing campaigns.
- Created layouts and visual systems in **Figma** and **Adobe Illustrator** aligned with brand guidelines.
- Collaborated directly with clients to deliver tailored design solutions.

Visual Designer Intern

2024/08 – 2024/10 | Denmark

Plain Danmark ApS

- Developed brand identity guidelines including typography, color systems, and visual direction.
- Designed marketing materials for outreach campaigns under tight deadlines.

Front-end Developer Intern

2023/01 – 2023/04 | Denmark

Swoop Media

- Built responsive **UI components** using **React.js** in collaboration with senior developers.
- Applied usability and design principles to improve user experience across devices.
